

## Content

Barbara Wiewióra, Dariusz Mańkowski - The fungal communities on spring wheat seeds from different environmental conditions	3
Grzegorz Żurek, Kamil Prokopiuk, Danuta Martyniak, Agnieszka Rachwalska, Eugeniusz Paszkowski, Urszula Woźna-Pawlak, Maciej Jurkowski - Seed yield and its components in three festuca species	15
Dariusz Mańkowski, Anna Fraś, Kinga Gołębowska, Damian Gołębowski - Consumer acceptance of Polish bread products	33
Anna Fraś, Kinga Gołębowska, Damian Gołębowski, Danuta Boros - Dietary fibre in cereal grains – a review	43
Asadollah Ahmadikhah, Amir Marufinia, Esmacil Sharifzadeh, Mehdi Barakati - Mutation breeding of a rice dwarf line with slight yield loss under drought stress	55
Asadollah Ahmadikhah - Selection effects in rice as assessed by genetic analysis in segregating populations	69
Cristina Cantale, Alessandro Belmonte, Angelo Correnti, Anna Farneti, Fabio Felici, Laura Gazza, Arianna Latini, Francesca Nocente, Carla Micheli, Francesco Petrazzuolo, Patrizia Galeffi - A multidisciplinary approach to characterize triticale elite lines for industrial uses	79
Wanda Kociuba, Aneta Kramek, Roman Prażak - Resources of triticale in the Polish gene bank	93
Anna Broszkiewicz, Jerzy Detyna, Henryk Bujak - Influence of the magnetic field on the germination process of toska bean seeds ( <i>Phaseolus vulgaris</i> L.)	103
